Patient consent to treatment

Patient's Surname:

First Name:

Date of Birth:

In order to treat you we need you to understand that: We are regulated and registered healthcare professionals who need to ask for certain medical information to make an informed diagnosis. Failure to disclose information could result in inaccurate treatment being undertaken.

You are consenting to general podiatry treatment which can include, but is not limited to, nail care, dead skin debridement (removal), corn treatment, verrucae reduction and assessment of podiatric need.

Some treatments we offer will require further consent and will be discussed with your podiatrist if required.

Photographs and video may be taken during your appointment for your medical record.

You have the right to withdraw consent at any time.

Podiatrists use sharp instruments to carry out treatments. Whilst every care is taken, there is a slight risk of injury during treatment. Treatments carry a very small risk of infection after treatments. Certain medical conditions may increase this risk.

You have been issued with a patient information leaflet which explains your rights. Please keep this safe.

You are to update us of any changes to your medical status at future appointments.

You can ask your podiatrist if you have any questions about your treatment.

Your data will be processed for purposes necessary to your treatment (see privacy notice for details).

You have full capacity to give consent for your podiatric treatment.
